**Daiichi Sankyo Recognized for Achieves Position of Leadership for Climate Change Action
in “CDP JAPAN 500 CLIMATE CHANGE REPORT 2013”**

Tokyo, Japan (November 7, 2013) – Daiichi Sankyo Company, Limited (hereafter, Daiichi Sankyo) today announced that the company has been selected “Climate Performance Leadership Index (CPLI)” as a highly achieving company for the action to mitigate the risks of climate change and reduce emissions, as a result of investigation and evaluation on climate change by CDP.

CDP evaluates the company actions to mitigate climate change based on the contents of the provided information from the companies, and the companies featured in the CPLI are recognized with their highest performance to measure, evidence and manage the greenhouse gas emissions.

This time, 12 of the large Japanese 500 companies (FTSE Japan Index 500) are selected.

We believe that the achievement results in the high evaluation of our constant efforts in our environmental managements and information disclosure. We would like to continue to address the global environmental issues and to contribute to create the sustainable society.

About CDP

CDP, formerly known as the Carbon Disclosure Project is an international, not-for-profit organization providing the only global system for companies and cities to measure, disclose, manage and share vital environmental information. CDP works with market forces, including 722 institutional investors with assets of US\$87 trillion, to motivate companies to disclose their impacts on the environment and natural resources and take action to reduce them. CDP now holds the largest collection globally of primary climate change, water and forest risk commodities information and puts these insights at the heart of strategic business, investment and policy decisions. Please visit www.cdp.net or follow us @CDP to find out more.
